

## Understanding Airspace Like Never Before!

With an eye toward preventing your next airspace incursion, let's take another look at the airspace we fly in... The LA area is home to some of the most complex airspace structures in the world, and understanding it is critical to safe operation. We are happy to invite FAA Inspector David Voelker back to Fullerton to discuss ways he's seen pilots get in trouble, so you can learn how to avoid making the same mistakes.

**Directions:** Exit the 5 or 91 Freeway at Magnolia Ave Northbound. Turn left on Commonwealth Ave. In about 1/4 mile, you'll pass the airport terminal and ATC tower building; AFI is the next building to the West. AFI Main Hangar, next to self-serve fuel island West of the terminal building.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
